the natural way of cleaning

# ProfiGlass Plug & Play

## Scope:

ProfiGlass is an interior cleaner for cleaning polished surfaces such as mirrors, glass, windows, glasses, tiles, ceramic, sanitary, plastics, showcases & car windows. Also suitable for kitchen sinks and (ceramic) cooking plates. ProfiGlass is used by professional cleaners, cleaning companies, glass and mirror manufacturers and opticians. pH value is 8.

## How to use:

For a stripe-free cleaning result spray and wipe ProfiGlass with a lint less (microfibre) cloth. Do not use microfibre cloths, been washed with fabric softener. Do not use kitchen paper.

1. Shake the bottle well as before.
2. Open the spray head.
3. Spray the surface to be cleaned in and allow it to 10 - 20 seconds, to withdraw.
4. Then take a microfiber cloth on the injected area.
5. Additional drying is not necessary. This glass cleaner dries without streaking.
6. In the case of stubborn dirt repeat the treatment once again

Our ProfiGlass allows you to easily glue stickers on glass and mirrors. You can also delete perfect light pollution stainless steel range hoods and refrigerators with the ProfiGlass. For stubborn stains, we recommend using the degreaser Profi6.

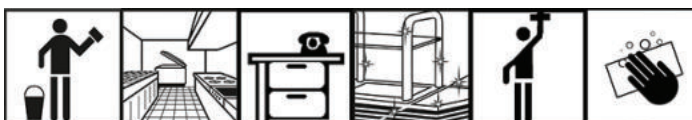

ProfiGlass can also be used to clean screens include laptops, computers, iPads, televisions and telephones. Also you can clean your glasses and / or sunglasses.
