

ProfiCalc Plug & Play

Scope:

ProfiCalc **Plug & Play** is a cleanser for the periodic removal of lime deposits. By using thickened composition the active substances will, especially on standing surfaces up to use to the lime to break down. Is ideal for the descaling of tiled and glass walls of bathrooms, tile walls, bathtubs, toilet bowls, other plumbing, swimming pools and sports halls, car washes, etc. Based on phosphoric acid. PH value is 1.

How to use:

1. Open the spray head
2. Spray the surface to be cleaned in and let it withdraw for 30-60 seconds.
3. Next, take a microfiber cloth on the injection site.
4. Clean the surface thoroughly with clean water.
5. In the case of stubborn dirt, repeat the treatment once again. Where necessary, use a brush or scouring pad.
6. After use, the spray head closed again

If the scaling is very stubborn, we recommend to use the pure version ProfiCalc. The **Plug & Play** version is particularly suitable for everyday use and light touch

Do not use a microfiber cloth with fabric softener crops. This softener leaves streaks.

If in doubt about the acid resistance of the material, you need to test on an inconspicuous surface in acid sensitivity. Do not use on natural stone, marble and strongly calcareous tiles. For this we recommend using the Profi6 PH Neutral.

Be very careful with the use of metals such as stainless steel, aluminum, etc. Let the ProfiCalc **Plug & Play** not dry it may cause damage here.

Dosage :

Ready to use. Plug & Play. Shake before use.

Features:
